CANAL POINT, PALM BEACH COUNTY, FLORIDA, DECEMBER 12, 1924.

\$2.00 A Year

TRUSTEES SELL STATE LAND AT ST. LUCIE CANAL

DEAL IS FOR TRANSFER TO CONNERS ASSOCIATES

Follows Precedent Set In Adjustment of Controversies Elsewhere

The trustees of the internal improvement fund, with headquarters at Tallahassee, have agreed to sell the Southern States Land & Timber Company of West Palm Beach the land outside of the meander lines along Lake Okeechobee on six sections at \$1,000 an acre, a distance of five miles, it is disclosed by the publication of a list of real estate transfers in West Palm Beach daily newspapers. The instrument making the conveyance is a scribble in the newspaper report "transferred deed," it is believed that the deed is a quit claim or of the character of a quit claim deed.

The land conveyed touches on sections 3, 4, 10, 15, which are north of the lake, and sections 22 and 24, which are south of the canal. Practically all of it is now under water but will extend as dry land for several hundred feet beyond the meander line, where the water is at the usual 14 or 15-foot elevation. Title to the land beyond the meander line had been claimed by both the trustees, on behalf of the state, and the land company.

Publication was made seven weeks ago that W. J. Connors had contracted to buy about 5000 acres of land at St. Lucie canal and the lake from the Southern States Land & Timber Company if the land company would deliver title to the lake. From filing of the deed from the trustees shows that the land company put itself in position to deliver, by buying from the state.

The Southern States Land & Timber Company tendered a deed and abstract to Mr. Connors on the St. Lucie 5000 acres last week. W. L. McGriff, auditor of the Connors' corporation, said last week: "The five-miles of lake front land is included in the deal. Mr. Connors is under contract to take up the deed."

Sale of the St. Lucie lake front land is in pursuance of the policy adopted by the trustees of the internal improvement fund several weeks ago when they sold lake front land at Okeechobee to owners of abutting land who claimed the adjoining land under riparian rights. The Okeechobee land is believed to be \$35 an acre and is to be sold for \$35 an acre.

Mr. Connors, with a contract to buy from the Southern States Land & Timber Company, has agreed to subdivide the property and sell it. His plans contemplate a bulbhead of the lake front and a fill.

START LOT SALES AT CANAL POINT NEXT FEBRUARY

MANAGER OF TOWNSITE TELLS OF PLANS

Will Use Large Sales Organization Now On Lake Worth Development

The Pioneer Investment Company, which owns the portion of the Canal Point townsite north of the canal, will start its operations here in January or February. J. A. Rostan, the manager of the company, left Monday, Nov. 26, for his home, where the company has its office, and was accompanied by J. W. Hammond of Boston, a director of the company. They looked over the plan site to see the effect of the flood and found that the water was off all of the lots.

The Pioneer Investment Company owns more real estate at Lake Worth than any other developer, and it is putting on a 20-acre subdivision at Lake Worth for which it will have 50 sales. When the Lake Worth subdivision has been sold out the organization will apply its efforts to the development of the Canal Point property.

Mr. Rostan said he hoped to get the townsite cleared soon after the first of the year and to start the sales then, even before the new year, as the property is put under way. The original plan was to rock the streets and put in sidewalks before the sales campaign opened but the flood and the delay in arrival of the Florida East Coast railroad caused a change in the plan.

If the Everglades road bonds carry in the election that is expected to be held in January, the contractor who builds the Canal Point Bahokes road will be

FIND 13 KINDS OF DUCKS ON LAKE IN ONE DAY

Dr. J. C. Crist of West Palm Beach and a companion shot 13 varieties of ducks one day last week while hunting at Torry Island under the guidance of Mr. Wimme. Mr. Wimme gives this list of the kinds of ducks they found: Canavasback, red-head, mallard, pintail, widgeon, gadwall, blue-wing teal, green-wing teal, blue bill, ring-neck, canvasback, and wood duck. This does not quite exhaust the list of varieties of ducks that are found in the Lake Okeechobee region.

LOCK GATES WILL HOLD, ASTT. ENGINEER SAYS

The lock chamber gate on the lake will hold the water, said State Engineer G. V. Scott of West Palm Beach, said Wednesday. Fear has been expressed that with the lake high, a north-west storm would put a pressure on the gate and let the water breed. The gates were closed again because the gate are rotting and Mr. Scott said they would be replaced as soon as a lower elevation of the lake permitted. It was not possible to fix a date. Mr. Scott said when the water level drops the gates will leave St. Lucie canal. One thousand feet of sidetrack is to be laid at a point on the lake front half way between Canal Point and St. Lucie canal.

Surveys of the section of railroad between Okeechobee and St. Lucie canal is completed and ready for delivery to the railroad company by the contractors. Work trains will pass for several months as trains have been crossing the pile temporary bridge since October. Rails and ties are being laid through Okeechobee and across St. Lucie canal at the point at which track is to be laid five miles north of Canal Point.

The Union Bridge Company which is in pursuit of a foundation for the permanent St. Lucie canal bridge will finish next week the first of the two piers which the completion of which it will be done there. Some protection piles are to be driven at the entrance to West Palm Beach canal at Canal Point after the Phoenix-Iron Works installs the bridge.

Mr. Cook said that the visitors would be asked to take an interest in the Clewiston townsite and join its development. Although they say the town includes in its worst possible condition, the visitors seemed to think well of it and to conceive of great changes and improvements that can be wrought in short time by the expenditure of a comparatively small sum.

Mr. Cook said that the visitors are already in.

Thirteen of the 71 piles for the foundation of the station building on the lake front one mile south of Canal Point have been driven, according to Mr. Cook and Foreman F. S. Sanchez expected to drive the remaining piles at the rate of ten a day. The building and platforms will be 50x60 and elevated 10 feet above the level of the ground. H. M. Snow Jr., of St. Augustine is running the instruments to give the levels and lines. The work is being done by a Kelly Construction Company crew.

Construction trains of the Jefferson Construction Company, building the Florida Western & Northern railroad for the Seaboard Air Line, are crossing the lake site to the south of the point at which the Florida East Coast crosses that canal. About ten miles of rails are yet to be laid to connect Okeechobee and West Palm Beach.

Work on the incanum section is south of St. Lucie canal. This section is scheduled to be completed within two weeks. The same schedule is made for the section of equal distance between Sebring and Okeechobee.

F. E. C. RAILROAD WITHIN 4 MILES OF CANAL POINT

PILE DRIVING FOR STATION BUILDING

Crew of Steel Erectors Expected
New Week for Bridge
Work

A Kelly Construction Company track-laying crew, extending the Florida East Coast railroad from Okeechobee to the east side of the lake, are working half way between Canal Point and St. Lucie canal Wednesday morning. Foreman W. H. Guy said he expected round the curve of the "saw cut" today and never the mid-point on the sand bar by the end of the week. The remaining four miles distance to Canal Point is on the soft muck of the lake front and Superintendent Hart would make no statement when the work would reach West Palm Beach. The canal, one thousand feet of sidetrack is to be laid at a point on the lake front half way between Canal Point and St. Lucie canal.

Surveys of the section of railroad between Okeechobee and St. Lucie canal is completed and ready for delivery to the railroad company by the contractors. Work trains will pass for several months as trains have been crossing the pile temporary bridge since October. Work on the incanum section is south of St. Lucie canal. This section is scheduled to be completed within two weeks. The same schedule is made for the section of equal distance between Sebring and Okeechobee.

ASK BIDS TO IMPROVE NORTH NEW RIVER CANAL

TALLAHASSEE, Dec. 9.—The board of commissioners of the Everglades drainage district today advertised for sealed bids which will be opened here Jan. 14 for excavation work to approach nearly 60,000 cubic yards of earth and 1,117,000 cubic yards of rock in the improvement of the North New River canal.

The excavation work is to begin at or near the north boundary of Broward county and will run northward through the canal to its junction with New river, a distance of approximately 30 miles.

NORTHERN MEN INSPECT CLEWISTON TOWNSITE

Clewiston townsite and the country around the town were viewed Friday by a party of real estate men who were shown about by Isaac T. Cook of St. Louis, who represents the owners. In the party besides Mr. Cook were J. M. Davidson, a mining man, and Mr. Myron Myers of Williamsonport, Ohio, and Clewiston. John F. Nichols of Minneapolis, Minn., S. P. Williamson of Minneapolis, W. H. Evans of Minneapolis, Charles Panekaker of Milwaukee and C. C. Dean of Duff of Clewiston. They went through Canal Point to West Palm Beach Tuesday night.

Mr. Panekaker is formerly from Kokomo, Ind., and W. N. Turner of Kraemer land. Mr. Nichols is president of the Minnesota Real Estate Association and Mr. Williamson is secretary of the firm of W. H. Evans & Company. Mr. Davidson has large mining interests in Alaska.

Mr. Cook said that the visitors would be asked to take an interest in the Clewiston townsite and join its development. Although they say the town includes in its worst possible condition, the visitors seemed to think well of it and to conceive of great changes and improvements that can be wrought in short time by the expenditure of a comparatively small sum.

Mr. Cook said that the visitors are already in.

EXPERIENCE SHOWS SUGAR CANE TO BE BEST GLADES CROP

STANDS HIGH WATER AND COLDEST WINTER

Can Give Value To Thousands
Of Acres Of Land In All
Parts of Glades

Preparations by the Florida Sugar & Food Products Company for the grinding season were not stopped by the high water and the mill a mile east of Canal Point is being put in condition to begin the campaign about the middle of January, by which time the cane will have sweetened enough to yield as large a tonnage of sugar as the mill has produced in any year.

Pumps are running steadily, accelerating the lowering of water in the fields that is accomplished by evaporation.

The hard test given to sugar cane in the Florida Sugar & Food Products Company's cane field is accepted as being a demonstration that the cane is the crop best adapted to the larger part of the muck lands of the Everglades.

Admirable of the 1924 crop on the company's sugar cane was reduced by the protection afforded by a dike built on the north line during the summer. Officials of the company said this week that during the coming year other dikes will be built and similar pumping equipment installed to make certain that the cane will not again be hurt by high water.

Sugar men from all over the country have visited the cane field plantation to inspect the cane and to learn that all conditions are favorable for the production of sugar in the Everglades. They have noted that the winter of 1923-24 was a severe one with many cane fields frozen over. The cane has survived three successive inundations. They comment on the circumstance that no other crop can thrive under these conditions as sugar cane thrives.

THE EVERGLADES IS ALL RIGHT; THE ADMINISTRATION IS WRONG

It is not The Everglades News that is "knocking drainage in the Everglades"—the discredit that this region and the drainage enterprise have been brought into are caused by the policies of the chief drainage engineer and the state drainage board.

This newspaper believes in the Everglades and the practicability of reclamation, believes that there are thousands of acres of land that are fit for settlement if main outlet canals were completed and believes that the canals could have been completed in time to have avoided the overflow of 1922, the high water of 1923 and the flood of 1924.

We believe that the land has a value warranting financing in a sum adequate to the complete reclamation and protection of areas that are now flooded. The chief drainage engineer and the state drainage board have not believed that the land was fit for settlement and had bad views justifying financing in a sum large enough to complete the work in given areas.

Ours is the faith, theirs is the doubt. We are the "optimists;" they are the pessimists. We are "boosting" the country and the drainage plan; they are the hold-backs and the "knockers."

This newspaper challenges contradiction of its declaration that the Everglades has been flooded and that the waters stand on land needlessly long. The work that is being done to repair the damage is work which has been done a year ago, would have been permanent work. Fifty million dollars has been invested in the Everglades, and the policy of the state drainage board has made a fifty million dollar plant stand idle for months, needlessly. To deny and conceal the facts serves no purpose but to save the reputation of men who have failed. To tell the truth should spur public opinion to demand for reforms in the administration of the district.

asked to do the street work on the Pioneer Company's Canal Point property while he has equipment here and a rock supply. The contractor on the project will not take the townsite, the company will ship in rock on the Florida East Coast railroad and its engineer, Ward Randolph, will superintend the installation of the improvements. Mr. Rostan said.

STRAIGHTFORWARDNESS

What the editor of The Everglades News thinks of drainage conditions and the administration of drainage districts in the state where all can read now and in years to come will have been hit by the criticisms in this paper are alert for any slip that may be made; "a slip of the pen or any such error in the typewriter's error will be seized upon and magnified in the effort to undo the editor of this paper."

What are some of the other men in the Everglades doing? Well, some of them are privately and confidentially telling the editor of The Everglades News that "I'm not you—you are right, but I can't say anything." Compliments and commendation from censors are not wanted.

When public information is withheld, it is an effort to make it hard to play both sides against the middle, seeking unmet favors from Tallahassee, and at the expense of the smaller farmers whose land has been flooded.

It will not do a year hence or years hence for some four-flusher to tell what he did for the Everglades farmers in 1924, if he cannot show his colors now and share whatever penalty goes with it.

SOUTH FLORIDA ROADS

Contracts for a million dollars worth of road work in DeSoto county have been let by the state county commissioners. This has been done in what is left of old DeSoto county, the remainder of the creation of Hardee, Highlands, Glades and Okeechobee counties by splitting the original DeSoto county and leaving the old county with an area of less than 20 townships. The area of DeSoto county, in which the new roads will be built, was voted a few months ago, is about half of that part of Palm Beach county which is south of West Palm Beach.

Glades county, part of old DeSoto, voted \$275,000 bonds last April and is now building the roads planned under that issue.

Hardee county, which was created by ditching 30 townships from Lee, has voted \$430,000 road bonds.

Stellar financing of roads has been done in the county in the interior of South Florida. In the meantime, the Chamber of Commerce at Arcadia, in DeSoto county, has decided to make a call for a meeting to be held in January to call delegates from the various bodies of Manatee, Sarasota, Highlands, Okeechobee, St. Lucie and Palm Beach counties will be invited. The idea is to popularize the idea of linking the stretches of roads already constructed.

Broadway should be included in the conference to present the idea of extending state road No. 2 along the east shore of Lake Okeechobee and the bank of North New River canal.

THE OUTLOOK

Years of "prosperous and healthy conditions such as succeeded the election of 1896" were forecast for the United States by Secretary Mellon in the annual report of the Treasury to Congress.

The United States, he asserted, was the first world to come through the post-war period in "reasonable and sane economic progress" will continue within its borders.

In general economic conditions as well as in the domain of federal fiscal operations, the country had been able to complete the transition had been. He said that in the last four years the per capita tax of citizens of the United States had been cut from \$1 to \$2, or even more, half of which, he said, in 1920 exceeded \$6,500,000,000, which in 1920 exceeded \$3,500,000,000, in the fiscal year which ended last July 1, and the "complete disorganization of the economic structure by the collapse of prices in 1920 and 1921 has been rectified."

The lifting of the tax burden, although it has been done, he said, has done much for business. Mr. Mellon said, and he expressed the hope that more could be done soon. He said that the time had come for a radical tax reform and that "anything using the field of taxation as a field for socialistic experiment or as a club to punish success" is all this shows he said, the conditions of a few years ago may come back.

"While it has taken time for this situation completely to remedy itself," he said, "the time has come when the government has now more business and banking and business conditions are in a thoroughly sound position. Prices have been very stable for two or three years production has been twenty or twenty-five per cent, bank debts, fifteen or twenty per cent, and employment eight or ten per cent. Interest rates have been rather high, but have been reduced more than half. Discount rates of the Federal Reserve Bank of New York, for example, have been reduced from seven and one-half to three and one-half per cent. Bank deposits have increased six to eight billion dollars from the low point of 1921, or over twenty per cent."

Extension of state road No. 2 from Extension of state road No. 2 from the big thing on the program for the advancement of South Florida.

THINGS ARE GOING TO CHANGE

Affairs are at the turning point in the Everglades. Conditions were bad, very bad, and they are worse. As a present condition affairs are at the peak of badness; as a guide and pointer for the future conditions are better than they have ever been. Things are going to get better because small farmers, speculative owners of tracts, large land owners and the chief financial and members of the Legislature, band-holding, and the miscreants of the Everglades Drainage District do not dare let things continue.

There has come to be a rather general realization that with normal rainfall in the next rainy season, the marked changes are made in dredges, ditches, and a flood in the Everglades in 1925, and more disastrous than any before because of the immensely larger property interests.

There are going to be changes.

There are going to be changes. All residents of the Everglades News are alert for any slip that may be made; "a slip of the pen or any such error in the typewriter's error will be seized upon and magnified in the effort to undo the editor of this paper."

There are going to be changes. The people around Lake Okeechobee will wait to see how the local commissioners of the Everglades Drainage District is composed before they assent to an extension of the boundaries of the district.

They shouldn't be transferred to the school fund? They have been opposed to that, but they are not in the school system. The schools deserve better support. If they can't get money one way they ought to get it another.

Noble Padgett, who died at his home in Pahokee last week, was a useful man and will be missed on East Beach and the entire lake region has been.

We are told that the consequences of its statement, The Everglades News says and warns that if dredges, locks and dams hold up water overflow farming lands next year drainage will be used to open the outlets.

The chief engineer and the state drainage board and contractors are not able to get action from the Legislature. The reign of terror may be slow. There may be a bad bond market. Contractors may get by with exorbitant fees.

Traders—Palm Beach Chamber of Commerce recorded their views.

The reign of terror in the Everglades is over. Men can now speak their minds.

The Everglades News is for the small farmers of the Everglades. No man or organization is so bad that this paper will put in with them as against the people of this region.

Readers of The Everglades News who live north of the Florida line know that there are many good automobile routes to the states, and the best is through the Everglades.

The people around Lake Okeechobee will wait to see how the local commissioners of the Everglades Drainage District is composed before they assent to an extension of the boundaries of the district.

Why shouldn't the state lands in the Everglades be transferred to the school fund? They have been opposed to that, but they are not in the school system. The schools deserve better support. If they can't get money one way they ought to get it another.

They shouldn't be transferred to the school fund? They have been opposed to that, but they are not in the school system. The schools deserve better support. If they can't get money one way they ought to get it another.

W. D.—Okeechobee Fruit Lands Co., Mrs. Hiram F. Hammock, president, to Florida Sugar & Food Products Co., Inc., Ernest J. Salvage, 104 and 121, L. 1, 2, 21 and 22, town site Nema, blocks of sec. 33-37, also beginning at point 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, PAGE THREE

**LIVE INTEREST IN
IDEA TO EXTEND
STATE ROAD NO. 2**

**FROM ORLANDO TO OKEE-
CHOEE AND LAKE**

**Would Connect Several Routes
And Bring Much Traffic
Into Everglades**

The proposal that a state road be constructed between Orlando and Okeechobee has aroused much interest in Canal Point. The public and is unanimously favored. Associated with the plan is the idea of having the road made a part of a mid-state route, extending from Okeechobee on the east side of the lake to the New River canal and thence into Fort Lauderdale.

Routes of two roads from the Georgia state line to Orlando are given in the following statement of highways' conditions issued by the state road department:

Road No. 2—Georgia Line to Fort Myers.

Georgia's line to Lake City, sand day road, in fair condition. Lake City-High Springs, concrete and surface treated rock base, excellent. High Springs to Gainesville, 25 miles of asphalt, concrete first 10 miles of Gainesville, asphalt surface, very good. End of asphalt to Micayon, five miles rough. Micayon to Lowell, asphalt, surface, excellent. Lowell to Ocala, very rough, no construction. Short detours around grading and culverts. Through travel between Gainesville and Ocala advised to follow detour 8 miles to the east. Ocala and Lowell to Belvoir, new asphalt surface just completed. Very good to Lake county line. Road in Lake county, 11 miles to Leesburg under construction. Numerous port deets around culverts and bases of destruction. Traffic advised to drive slow. Very rough, but passable. Drive out over country road from Frutland Park to Leesburg. Through travel Ocala to Leesburg advised to go via Wildwood, Leesburg to Eustis and Mount Dora, good.

Road No. 3—Georgia Line to Orlando.

Weds Landing to Yulee, sand clay road, in fair condition. Yulee to Jacksonville, old shell road, rough but passable. Concrete roads are engaged in placing such, but traffic carries through this operation. Jacksonville to Green Cove Springs, paving road, brick and tarmac base, all in good condition. Green Cove Springs to Palatka, asphalt to end of brick at Rice's creek. Brick road from Rice's creek through Palatka to San Mateo, good. San Mateo to Dunn, concrete. Northward, the distance from Dunn's creek to Sisco, Sisco to Crescent City, Pierson and De Leon Springs, asphalt surface, excellent. De Leon Springs through Deland to Sanford and Orlando, fair.

**Franz Merc. Co. Puts'
50-Foot Dock on Canal**

SOUTH BAY, Dec. 8.—The Franz Mercantile Company have put in a 50-foot dock on the canal in front of their new store building. This firm is familiar to all old-timers of The Everglades News, as the firm's advertisement was in the first issue of the paper and has been in every issue since. The Lund brothers, who are themselves pioneers in this part of the Everglades. First with a lumber yard at Okeland, they moved the business here about three years ago and the business has steadily increased in volume.

The store building is creditable to the contractor and the stock is well worth the patronage it receives. The construction of the dock is a fresh evidence of the firm's progressiveness. It is certain that the Franz Mercantile Company will be in the forefront always as South Bay moves forward.

NEW REALTY FIRM

The Palm Beach Land and Investment Company has opened offices in the Dowey building, 315 Clematis avenue, West Palm Beach. All of the stockholders are from Birmingham, Ala., and are W. C. Dowey, Lee Steiner, vice president and E. P. Pennington is secretary and treasurer. One of the directors, E. P. Rosamond, is a brother-in-law of Harvey G. Geer, one of the owners of Geerworth.

**HYACINTHSIAM CANAL;
STATE BOAT AVOIDS IT**

OKELANDA, Dec. 6.—The hyacinth jam in North New River canal is now within a quarter of a mile of us and it is only a question of a few days when it will be cut off by boat service between here and South Bay. "Transit," the state drainage board boat, was at South Bay Tuesday morning with some of the long-distance oil tankers. He said he would not let it if it would attempt to go through to Fort Lauderdale and get stuck in the hyacinths and stay stuck, but no such luck.

SAMUEL R. COPPER.

**To Dedicate Church
At South Bay Soon**

SOUTH BAY, Dec. 3.—The South Bay church building has been completely remodeled and will be dedicated in near future. One Sunday school, about \$10 for the Thanksgiving dinner for the entire congregation at Jacksonville. We will soon be able to again have night services at the church, as the water is receding.

Our public school is progressing rapidly under the direction of Mrs. Farmer and daughter Miss Eunice. Through them we have a Christmas program in view.

Mr. Powell, the bridge builder, is

doing real work here on the structure over North New River canal and expects to have it ready for use in January.

From here he goes with his crew

and equipment to the canal to erect a bridge. A dredge has been strength-

ening the dikes along the canal front and lake shore this last week.

Ducks, Ducks! Lots of ducks, and

the eagles are here and have gathered around Lake Okeechobee.

The South Bay Hotel, under the management of Mrs. Riley Brooks, is being well pa-

tronized by duck hunters, land pros-

pectors, trappers and traders. "It's

a fine place to eat all day."

Mrs. P. E. Goodloe has come to

visit her folks in Quitman, Ga., and

will be back winter Christmas.

Mr. O. C. Johnson expects to spend

Christmas in Fort Lauderdale. Mr. and

Mrs. Erickson and her son, Edw. A.

Forbes, were Mrs. Riley Brooks' guests

to Thanksgiving dinner at the hotel.

AVOCADO TREES SAVED
AT SOUTH SHORE FARMS

(From Glades County Democrat)

A recent interview with H. O. Sebring of the South Shore Farms on the south side of Lake Okeechobee reveals the fact that Mr. Sebring is just as enthusiastic about the subject of avocados in the Everglades.

He says their small lemons and pumps have saved practically a hundred per cent of their trees, even though it was at first thought that would be impossible.

Mr. Sebring has had from the farm is to the effect that less than one per cent of their trees are damaged.

Interestingly enough, the trees grow to a greater size in four years in the Everglades than they do in many other parts of Florida in seven or eight years.

Mr. Sebring says, and can easily conceive of Everglades grown avocados conclusively, that they grow wonderfully and produce prodigiously and that the quality of the fruit is beyond criti-

Mr. Sebring feels jubilant over the fact that his protective measures were entirely successful this year and is making it his business to provide against emergency which may arise in the future.

CHARLES COUREY of Stuart, the "old

Pechelona," as he is sometimes called,

is now at Springton working, visiting

and making shipments. He was at Clewiston for several weeks last spring.

F.R.C. CLEWISTON

Isaac T. Cook of Louisburg, who is handling several real estate deals on the west side of the lake, is expected to visit the Everglades this week. He will accompany a party of men who have joined him in his Clewiston enterprise.

**F. S. Lee Sells Tracts
Of Land at South Bay**

Ground Is Getting Dry and Beans Are Moving In Large Volume

SOUTH BAY, Dec. 8.—Frank S. Lee, our real estate man, has sold several 40-acre tracts in section 12. All parties to the sale say the ground is getting dry and beans are moving in large volume. The following: L. J. Cottrell, P. E. Goodbread, M. B. Martin, C. Wayne Ward, S. J. Fisher and John Challancin. Several lots have been sold in South Bay and every house will be erected this winter and spring. Among those who have bought are: Wm. H. Rawls, Charles E. Forbes, H. W. Gardner, G. H. Hayes, L. A. Gardner, M. H. Barnes, Ivan Van Horn and L. C. Betzner. L. A. Gardner has completed a house for S. Donaldson of Carnegie, Pa., on a 10-acre 40-acre tract on the east side of the canal. We are having excellent boat service. Captain Bill Welton is making weekly trips to the coast again. His boat, the "Foxy," makes three trips a week to West Palm Beach. There are daily trips to all south shore points by means of Captain Ed. Forbes' "Fox," which runs on schedule between South Bay and Clewiston.

The "Fox" Boat Line is busy nau-

gally bringing in goods from

Wade & Fisher's saw mill, which is

all around the lake shore. All around

the south shore of the lake you can find

lots of bean fields now being picked

for beans and beans.

Watch the south shore of Lake Okeechobee with its big crops now growing.

**HYACINTHS IAM CANAL;
STATE BOAT AVOIDS IT**

OKELANDA, Dec. 6.—The hyacinth jam in North New River canal is now within a quarter of a mile of us and it is only a question of a few days when it will be cut off by boat service between here and South Bay. "Transit," the state drainage board boat, was at South Bay Tuesday morning with some of the long-distance oil tankers. He said he would not let it if it would attempt to go through to Fort Lauderdale and get stuck in the hyacinths and stay stuck, but no such luck.

Mrs. Bula, E. Croker, widow of the late chief of Tammany Hall, has declined to accept \$1,588,398 offered by a West Palm Beach real estate firm as compensation for the exercise of an alleged option on her ocean front

property at Palm Beach.

Fred VanDyke of Buffalo, N. Y., president of the bus line company, has signed a contract with the Everglades Company Highway with a view to putting on a fleet of busses between West Palm Beach and Tampa.

**DRAINAGE MEETING
IN MIAMI ON DEC. 15**

Proposed That Next Drainage Bill Be Drafted In Advance of Legislative Session

MIAMI, Dec. 1.—Plans for holding in Miami a convention of all representatives and senators-elect from the several counties which lie in the Everglades were discussed Monday night at the Everglades drainage association, and John W. Watson, sr., and Norris McElroy, Dade county's newly elected members of the two state legislative bodies, were asked to attend a special meeting of the association to be held December 15 to perfect arrangements for this gathering.

In order to get permanent results in Everglades drainage it is the desire of members of the drainage association that an indefinite bill be framed prior to the meeting of the legislators so that this can be passed through and needed relief furnished to citizens of the rice farming sections which are now subject to overflow. The suggestion was advanced that all members of the house and senate to visit the Everglades before their annual session in Tallahassee.

The association approached the legislature for a bond issue of \$300,000 to furnish roads to farmers in the back country. This petition will be circulated among voting members.

Names of 25 per cent of the qualified voters will be required before the petition is presented to the county commissioners December 9.

PEOPLE WE KNOW

R. E. Kurtz, representative-elect from Glades County, stopped in Canal Point Saturday on his way to Moore Haven to West Palm beach and died at the office of The Everglades News.

Mr. Kurtz is an attorney and although he is not yet in middle age he has a remarkable practice, his clients being scattered on both the east and west coasts.

Charles Courley of Stuart, the "old Pechelona," as he is sometimes called, is now at Springton working, visiting and making shipments. He was at Clewiston for several weeks last spring.

Dr. BELL'S
PINE-TAR HONEY
FOR COUGHS**

FOR quick, sure cough relief there is nothing like the pine-tar and honey, which our parents and grandparents relied on. But be genuine Dr. Bell's Pine-Tar Honey, the original product, has been used in thousands of families for years. It is safe, has no side effects, but still remains the best. Often stops a bad cough in 24 hours. Perfectly safe for children as well as grown-ups. Insist on Dr. Bell's and no other. Only 30¢ at any good druggist.

PAHOKEE

LULA BARFIELD, Editor of Department.

Noble Padgett Dies

Noble Padgett, popular resident of this place, died suddenly by death Friday night at his home here. Heart trouble was the cause of his death. He was apparently in very good health that day and up until four or five hours before he was suddenly taken ill and died in some twenty or thirty minutes despite all efforts of Dr. Spooner to save him. His body was taken to West Palm Beach and buried in a plot where it was prepared for burial by the Ferguson undertaking establishment. Interment was made at Woodlawn Cemetery Sunday afternoon at 4 o'clock. Memorial services were held in the Ferguson chapel at 3:00 p.m. and were conducted by the Rev. F. B. Jenkins, pastor of the Baptist church. It was largely attended by many friends and acquaintances of the deceased and well relatives and friends of the east coast.

Mr. Padgett was a resident of the Everglades for some ten years and always a most popular booster for this section. He owned a number of acres of most valuable much land and comfortable home and general merchandise store in Pahokee. He was a member of the Baptist church and the Pahokee Chamber of Commerce. Besides his wife and nine children, all of Pahokee except his oldest daughter, Mrs. W. S. Stucky of West Palm Beach, Mr. Padgett left a mother, Mrs. H. Padgett of Miami and five brothers, Henry Padgett, of West Palm Beach, I. B. Padgett, Miami; Frank Padgett, Fort Lauderdale; Stanley Padgett, Fort Lauderdale; Stanly Padgett, St. Augustine, and two sisters, Mrs. Emma Strange of Palatka and Mrs. Ruth Parker of Miami.

Many beautiful floral wreaths and bouquets were spread in profusion over the casket as it lay at the undertaker's chapel; some delightful specimens grown in the soil of the Everglades at Pahokee, will be with Mr. Padgett never failed to boast about.

The pall-bearers at the funeral were: Ira York, A. R. Rice, A. Kaltenbauer, Mrs. W. H. Fieldwell, E. G. McPatrick, Jr., T. H. Dixon, J. H. Cason, all of Pahokee. The services were very impressive and beautiful consisting of some sacred vocal music, scripture reading and prayer.

WOMAN'S CLUB HOLDS BUSINESS MEETING

The monthly business meeting of the Pahokee Woman's Club was held Monday afternoon in the Baptist church. Owing to the bad road and possible misunderstanding about the day of the meeting, only a small number of ladies attended.

Unfinished business was taken up and discussed first. The matter of a lot was brought up and as Mr. Vivian's lot was not where he thought it was and his son's position was entirely out of reach at this time an offer by S. A. Barfield of a lot on his front to the club was voted on and accepted. Mr. Barfield offered to make the lot a gift if the club would sign \$1, the cost of a deed, and erecting a cabin house on it. Bills were ordered paid. The treasurer report was adopted. The matter of sanitation and cleanliness of the streets was discussed briefly and carried over for further discussion.

As the churches turned over the union Christmas tree to the Woman's Club, plans were made for that and committees appointed to take care of the arrangements of the program, the presentation of the raising of the funds to finance the same.

A resolution of sympathy and condolence for Mrs. Noble Padgett was read and adopted by the club. The meeting adjourned till next Monday, their next meeting department to be in charge of the monthly social meeting. Mrs. C. L. Wilder chairman.

AT THE CHURCHES SUNDAY

Owing to the continued illness of Mrs. Nolt, Rev. F. W. Nolt will not preach here as usual as he may have to take his wife for her health. Sunday school, 10 a.m.

Practice Church service Sunday afternoon for the older folks. All who can sing should be sure to attend.

Methodist Church Sunday school and preaching services as usual.

TWO TRACTS ON LAKE FRONT

Between Canal Point and Pahokee

One of 13 acres, the other of 20 acres, both are cleared and have been in cultivation. They are on the ridge, with natural drainage, with larger degree of frost protection than anywhere else in the United States, and with the richest soil.

The price is \$1,000 an acre. They can pay for themselves with their crops this spring. They can be subdivided and sold at a large profit. For terms and other information, SEE ME AT ONCE.

FELIX H. WHIDDEN, "The Old Reliable."

106 1-2 N. Olive St., West Palm Beach, Fla.

PAHOKEE BANK DEPOSITORY

The Bank of Pahokee was made one of the depositories of county funds by the Board of county commissioners at a meeting last Saturday. The bank will get one-half of the county public fund. Every bank in the county now gets some of the county money.

RESOLUTIONS

Resolutions expressing regret and sorrow on the death of Noble Padgett and of condolence to his family were adopted this week by the Pahokee Chamber of Commerce. Mr. Padgett was one of the directors. The Pahokee Woman's Club adopted similar resolutions.

GLADES ROAD SYSTEM

EXPLAINED TO CLUB
WEST PALM BEACH, Dec. 10.—Rotarians listened with attention to a explanation of the proposed Everglades road system and an ardent plea for the passage of the bond issue of \$1,800,000 necessary to finance it at their weekly luncheon at the El Verano yesterday noon.

W. A. Dutch, local bond dealer, brought out the fact that this or any other community could not progress nor develop without similar projects in the country back of it. And, as good roads are a fundamental essential to a town's advancement, this country should have good roads, the best asset it could achieve. Mr. Dutch stated that these roads were planned four years ago by a group of prominent men, and that the county had issued its bonds for the building of roads since the Dixie highway was built.

The Everglades will soon be drained and become one of the garden spots of the country, said Mr. Dutch, and its products will pay a pro rata share of the cost. He explained that the total cost of the project would not be issued at once, but that the more important roads should be laid out first, bids received and sufficient bonds issued to finance the work as it proceeded. In this manner the cost could be held down to the minimum, he said.

Alex. O. Taylor, assistant county engineer, outlined briefly the scope of the project and the estimated cost, of which the following:

- 1. Road No. 1, from Belle Glade to Canal Point line, \$392,000; road No. 2, from Pahokee to Belle Glade, \$232,000; road No. 3, from Belle Glade to Chokoloskee, \$150,000; road No. 4, 20-mile bend to Canal Point, already constructed; road No. 5, from Chosen to Pelican Bay, \$121,800; road No. 6, from Canal Point to Barefoot Point, \$149,470; road No. 7, from Hillsboro River to New River canal, \$22,000; road No. 8, from Okeelanta to Lake Okeechobee, \$14,000; road No. 9, from Okeelanta to South Bay, \$20,000; road No. 10, the widening of Military Trail, to be done at state's expense; road No. 11, from Chosen to Pahokee and Belle Glade, \$98,800.

R. B. Waldron, who farmed at Barefoot for five years, has removed to Bartow.

W. H. Vann was out from West Palm Beach Sunday to close a real estate deal.

P. T. O'Neal last week sold for A. Kaltenbruner a lot at Olympia. The buyer is a man from the north.

The buying for the second grounds camp Tuesday night and was handed to the grounds the next day by E. W. Simmons.

Rod Conine was over from Torry Island Friday to get the last of the lumber needed for his hotel, which was opened this week.

Alex Taylor of West Palm Beach went through Wednesday on his way to Clewiston where his firm is surveying the W. I. Conn's land.

Captain H. W. Davis was in town Wednesday still living four miles north of Canal Point but working on the Kissimmee river bridge.

A. S. Flowers of Richmond, Va., a civil engineer, visited Canal Point Sunday and again Wednesday. He had looked over the country last spring.

Two parties of miners had dinner at the Glades Hotel Sunday. The visitors had come out from West Palm Beach to see the country and the water.

The tug J. C. Morrow made a special trip to Moore Haven Sunday, taking two men who wanted to put in boats on the District Island drainage district job.

Members of the Baptist congregation have restored cash in their building south of the lumber yard and put in screening. Sunday school is held there each Sunday night.

A. L. Johnson, who lives at Clewiston, fell from his car Wednesday as the car crossed the railroad on Conner Highway. He was on his way to work in the St. Lucie machine shop. He was rendered unconscious by the fall.

Pipes for the foundation of the Pahokee drainage district pumping station were brought in Saturday by a tug from Okeechobee that also brought coal for the Campbell dredge boat. Captain John Gray's Berwick loaded the large sacks and took it to Pahokee. The Berwick also delivered at Jacob Point a load of lumber ordered through the Okeechobee Lumber Company for the dock at the pumping station.

The editor of the A. Woodard's "Deputy" has been revoked by Sheriff Baker in a letter dated December 4. Mr. Woodard said he called on the sheriff after the receipt of the letter and asked him to take it off the claim. He said he was told that the sheriff had a letter in which Mr. Woodard was charged with seizing Biques from one woman in Canal Point and giving the list to another woman. Mr. Sch. Mr. Woodard denies the charge.

WOMEN'S CLUB
The Canal Point Women's Club met December 1 at the home of Mrs. Mansfield who was assisted in entertaining by Mrs. Tom Lowe, Mrs. Helen R. Thomas, the vice president, presided in the absence of Mrs. Adams, the president.

Mr. Brigham was elected secretary to succeed Mrs. Crate Tucker, who has removed to Miami. In the course of consideration of business it was decided that each lady bring five tested recipes to the next meeting, with the idea of the recipes being compiled in a cook book which will be sold to get funds for the club's activities. Proposal was made that the club have a booth at the county fair, with the same idea of getting funds.

An arrangement was made that the next meeting of the club be held at the home of Mrs. A. L. Pope, she and Mrs. Brigham to entertain.

John Newhouse, once a resident of Okeechobee and later of Georgetown, is now at Fort Lauderdale. Writing to have the address for his paper character, he says: "I am working hard and aim to stay here until the Glades is habitable again."

The hour of being the first shipper over the F. W. & N. Ry., which section goes to Olin J. Pearce who has arranged for the movement of his citrus crop of 4,000 boxes from his grove, about one-half mile northwest of the new railroad station, to the Citrus Exchange packing house here. At least 12 cars will be required for the Pearce crop.

W. R. Gary and Glenn Skipper, owners of the Kissimmee Delta property, a 12,000 acre subdivision, announce that a deal has just been closed with Harry L. McFerrin, manager of the Orange Bay Country Club, Miami, to create a large country club in their grounds at the Kissimmee river on state highway No. 8.

Rev. E. M. C. Dunklin has been appointed enumerator for the agricultural census.

The city council will levy a one mill tax for publicity.

GLADES COUNTY

It is definitely settled that Glades county is to have an exhibit at the Tampa fair in February. The commissioners at their meeting Wednesday approved C. W. William D. Lovell and R. C. Clark as a committee to take charge of the work, giving them full authority to make the exhibit and voting \$700 for the purpose.

In the election for the vacancy on the county court caused by the resignation of T. J. Zimmerman, who has removed, F. M. Barbee received 65 votes and A. C. Smith received 40 votes. Mr. Barbee ran unopposed.

Theo W. Weeks, one of the county's most active truckers, will put in cabbage and potatoes at Lakeport, a few miles north of Moore Haven.

W. E. Smith of Plant City, whose name appears on the Miami Beach, was a member of a party of duck hunters at Moore Haven last week.

Construction of the road on the Indian River canal is progressing nicely, the Democrat's Elderberry correspondent says.

Sheriff Frank Richards seized a still on the hard road between Ed Frieson's and Brig Young's places.

SOUTH FLORIDA

"The Rio Lumber Company's sawmill at Rio, in the southeastern corner of St. Lucie County, one of the largest and most complete sawmills in the state, has started sawing a large lot of pine timber covering 40,000 acres and bearing approximately a hundred million feet of lumber. A five-mile railroad has been built from the sawmill to the timber supply, and before the timber is all cut the line will be extended probably to fourteen miles.

The Twin Cities' motor ship, *Agua Linda*, came last week to make the first shipment of citrus fruit from Florida to the north. The cargo of 20,000 boxes will be equal to 55 railcars. Officers of the Florida Citrus Exchange claim that the Twin Ports, the second port in the fleet, will reach Tampa this week and that additional boats will be added from time to time for a heavier load.

Fifteen Cuban government school officials and educators are to be entertained in Miami January 2, following their return from the Florida State Teachers Association meeting at Daytona, December 27 to 30.

Fort Myers' world famous Royal Palm Hotel will open December 15.

Spring's annual town election will be held in January. A caucus nomination of Mayor A. E. Lawrence for re-election.

The grocery store and meat market of Mr. and Mrs. East Hart Myers was destroyed by fire on the night of December 3. The loss is estimated at from \$17,000 to \$20,000.

Sale of \$175,000 common and preferred stock of the Peninsula Telephone Company of Tampa has been authorized to finance an enormous program of expansion.

Arthur Pryor's band has arrived at Miami to begin the eighth consecutive season. The band is composed of 26 musicians.

The Fort Pierce Golf Club course, located two miles north of that town, will be opened for the season January 1.

You will find something interesting in the advertisements on every page—read them.

PALM BEACH COUNTY

Stuart has a city planning board. Installation of water mains has been completed at Delray Beach.

An 800-h. p. lighting unit is being added to the power plant.

Issue of \$100,000 improvement bonds of the town of Stuart was authorized.

Improvement bonds of the town of Delray in the sum of \$36,486 will be voted at the monthly meeting.

J. C. Johnson, inventor of an airplane to manufacture it here.

J. Q. Henry, once a trucker at Prosperty Farms is now in the real estate business at Lake Worth and is doing well.

The Gulf Stream Hotel, Lake Worth's greatest hotel, will open this month.

The mother of County Commissioner B. B. Rawlerson died last week at Seville, Fla. Mr. Rawlerson attended the funeral.

E. C. Davis, former circuit judge, has bought the Otto Schmidt residence in Lake Worth at a reported price of \$15,000.

Bids for buildings of an estimated cost totaling more than a million dollars have been issued in Lake Worth so far this year.

An election will be held December 20 at Boca Raton on a proposition to issue \$90,000 bonds for street paving.

Boca Raton is the youngest municipal

ity in the county.

If any Glademan parks his automobile in front of the Lake Worth post office he will make himself subject to arrest if he stays there for days in jail—and so will anyone else.

Josephine Boydston, daughter of the school board member from Lake Worth and a native of Clewiston last week took part in the annual Boys' Club of Clewiston Congress during International Live Stock Exposition. Miss Boydston is a real "farm girl."

Construction of a community hall at Stuart is endorsed by the American Legion post. It is proposed that bonds be issued to finance the building and that the proceeds be turned over to the Kiwanis Club to be known as the Stuart Civic Building Trust Company.

Stanley Kitching was elected mayor of Stuart at the annual election last week. Ned conrad and George H. Brown, G. P. Bailey and Louis E. Urish. Mrs. Florence K. Spiers was re-elected town clerk, with no opposition.

A building and loan association is being organized at Lake Worth. A. D. Clark of one bank and Earl J. Reed of the other bank are among the incorporators. Next on the list of both of the Lake Worth "factions" appears the list of incorporators, indicating that the people are getting together again. Frank C. Reed is an officer of the Pioneer Investment Company, which owns the townsite on the north bank at Canal Point.

Okeelanta Dines On Home Grown Products

OKEELANTA, Dec. 6.—With the exception of the rice and the mince pie, everything at the Thanksgiving day dinner at the Fairview Inn was an Everglades product. A can-opener was used in the preparation of this dinner.

We were all invited to the Inn for Thanksgiving day dinner by Mrs. Muller Shad and had a good dinner and a good time. There were 22 good tables.

The following list of good things shows it pretty hard to starve at Okeelanta.

Goat and cassia meat, baked and fried, sweet potatoes, Irish potatoes, stewed squash, potato salad, baked beans, corn bread, fresh milk, homemade butter, bacon, corn, rice, beans, mashed and mashed with salt, pepper, and sage—wow!—and pumpkin pie and mince pie.

FREE MAIL DELIVERY—
AND IT'S IN A SKIFF!

OKEELANTA, Dec. 6.—Okeelanta is putting on city aids, just as for the water came up in free delivery and collection of mail was given the town.

The postmaster comes right up to our door twice a day with a skiff to collect and deliver mail and issue money orders.

GLADES WEATHER

AROUND THE LAKE

(Compiled by H. P. Peterson, Local Observer, Okachobee)

Comparative summary of temperature and rainfall during the past several months at several points in this section, according to available govern-

ment reports:

Total rainfall 42.62
Total rainfall during above period at Canal Point was 50.59 inches.

Transfers of Titles By Paul Brown Land Co.

LaBELLE, Dec. 10.—Deeds filed here Saturday show that the Paul Brown Land Company has sold its holdings in Glades and Hendry counties near Clewiston to the Sugarlands Development Company. This was the charter of the Sugarlands Development Company, of which B. Watson, F. B. Aschmeier and E. Q. Banning are officers. Provision is made for \$200,000 of preferred stock and 4,000 shares of common stock without designated value.

The charter states that the principal office of the new company will be in Clewiston.

The purposes specified are: "To engage in all kinds of improvements, construct canals, dig ditches, drain land, etc.; to develop timber, timber beds, shingles, naval stores, etc., and all by products of timber; also to produce and manufacture oil and grease, fertilizer, petroleum oil, and by products thereof; to build roads and bridges, ice manufacturing plants, etc., and to operate boats, and to buy and sell and trade in all kinds of oil lands." The highest amount of investment of the new company is limited to two million dollars.

ASKS FEDERAL SURVEY OF CALOOSA-HATCHEE RIVER

WASHINGTON, Dec. 9.—Congressman Crane has introduced a bill for a preliminary examination and survey of the Caloosahatchee river from Moore Haven to LaBelle and to the railroad bridge at Moore Haven. The object of the bill is to get such action as will prevent a recurrence of recent floods near Moore Haven and LaBelle.

A hearing on the bill has been arranged with the house committee on flood control at which time Mr. Crane and W. P. Franklin of Fort Myers will urge a favorable report.

SALES OF RAW LAND

H. F. Pierce, formerly of Belle Glade and D. W. Stevenson, formerly of Moore Haven, now in the firm of Moore & Stevenson in Miami, has made several large sales of unimproved land in the past month. W. M. Ballard of Haleah has bought through them land in Collier in townships 37 and 38, ranges 32 and 33. His agents found and they have sold to Mr. Smith of the Empire Land Company.

**GRADING BEANS
AT CLEWISTON**

South Bay Growers Association
Have Arrangement With
Thigpen

Shipments of beans continued to go
forward during the week from South
Bay and Kraemer Island and, in smaller
quantity, from Bacon Point, where
R. J. Boyd is the grower.

The boat Bay Isle has been put on
the run between East Beach and Clewiston
by the Clewiston Boat Line, to better handle
shipments from East Beach and the island to the A. C. L.
railroad at Clewiston than the smaller
boat Wilma could do.

A Democrat who has visited
the upper Glades for several years, is
back in Clewiston and is making ship-
ments. C. D. Thigpen also has
shipments. The first solid car load of
beans was loaded at Clewiston by Mr.
Thigpen November 25 and 26. An
earlier car was loaded at Moore Haven
the following Wednesday, made up
consignments from South Bay com-
munities.

The largest acreage of beans is at
South Bay, where the shippers are
J. Fisher, Rashley, Wells, Temperton
Bros., Farmum, Cowen, Wilder
and Kosherhov. Shipments have also been
made at Clewiston, Bok Choy, Glades
and Wilma Haven. Democats say this
was a Thigpen shipment and he attri-
butes his good sale largely to the fact
that the beans are graded and sorted
just before being loaded into the
refrigerator car, the Democrat says, con-
tinuing: "With the assistance of the
Clewiston Farmers' Association, Mr.
Thigpen has installed a machine
that conveys the beans by the grader, mak-
ing it possible to grade and pack from
100 to 200 bushels of beans and peas
daily. In this way, the farmers say, they
will label all of their strictly fancy
stock and the stock that is not fancy
will be shipped in plain packages."

The beans are graded and labeled
without cost to the grower or shippers
and the price is based on the quality and
condition of the stuff before grading.

"Many growers seem to realize
the importance of a neat package of uni-
formly graded and free from debris
and there are very few that are shipping
at present that are not taking ad-
vantage of the opportunity offered by
the South Bay Growers' Association
at Clewiston for grading. Many are very
enthusiastic and consider the steps taken
by the association as the most pro-
gressive step taken by the bean grow-
ers around the Everglades. In creating
a more favorable impression of
local products, thereby creating and
holding an active demand as long as
this is a market."

W. H. Young of Moore Haven
reports a 14-inch lowering of
water at his farm east of town
and thinks he will have no trouble in
making a good crop this year. Glades
County Democrat adds that Mr. Young
is preparing seed beds for 50
acres of tomatoes and will also plant
20 acres of English peas. Tom Waring
of Waring's is also reported to be
tractors plowing at Waring Siding
Monday (December 1). They will
plant 20 acres to English peas this
week. Mr. Waring expects to have
200 acres of land ready for the first
of January, for planting to tomatoes and
beans. E. G. Crofod and F. C. Mills
and Company have land near the lake
with plans to start.

There was a light frost on the morning
of November 30 at Palmdale, in
the sand section of Glades county. The
temperature went down to 37 degrees.
There was no vegetation there to be
hurt. A rain would welcome it, however.
That part of the county is in Dade County.

A distribution is to be made to the Palmdale
farmers on December 5, says the
tomato acreage in that county will be
short 20 per cent of last year's on
account of scarcity of labor and unusual
wet weather. According to the present
outlook no tomatoes will be shipped
from Miami before February 15.

Report is made from Wauchula that
has almost the largest fall crop that
has ever gone out from there.

**Drill Barge Moving
To Lauderdale Canal**

To get the Holloway & Schrader
drill barge into North New River canal
from 20-mile bend it will be necessary
to send it through St. Lucie canal and
through the coast road canal. The
drilling outfit will be used in North
New River canal and rock that will
be taken out of that canal will be leveled
down and made the base of a road
from port to port and northward, approxi-
mately to extend to the Palm Beach
county line. Captain Clay Johnson
went through Canal Point this week
with the large charge. The large
charge could not be taken by water
because the lock gates are
open there to move the overflow water
from the middle Glades and Lauderdale
canal is jammed with hyacinths.

**Methodist Preachers
Assigned To Stations**

Rev. Nease Is Transferred To
Wildwood; Rev. C. E. Cook
Comes To Pahokee

Rev. W. J. Nease, pastor of the Pa-
hokee M. E. church south, was trans-
ferred to Wildwood, in the Odessa dis-
trict, by the annual conference, which
was held this week at Jacksonville. The
new pastor for Pahokee is Rev. C. E.
Cook, Rev. Holmes Logan was trans-
ferred from Pahokee to Wildwood and
will be succeeded at Moore Haven by
Rev. R. B. Templeton. Rev. George
H. York, whose father, and brothers
Largo and Bunnell, were transferred from
Moore Haven. He was once pastored
Pahokee.

Rev. C. H. Summers, pastor of the
West Palm Beach church, was made
presiding elder of the Gainesville dis-
trict and is succeeded at West Palm
church by Rev. L. M. Broyles. Rev. W.
D. Dunn, pastor of the churches at
Tampa and West Palm Beach, is now
presiding elder of the Jacksonville dis-
trict.

The list shows, T. M. Lee, as assign-
ed to Okeechobee, and missions, this
probably is the preacher who was sta-
tioned at Moore Haven two years ago.
Albert and LaBelle have been put in
charge of Moore Haven.

Assignments for some of the churches in
the Miami district are: C. F. Black-
burn, presiding elder; Boynton, P. E.
Trigg; Delray, W. C. Fountain; A. M.
Hugglett; Sebastian, M. E.; Myers
South Dade, T. W. Whitworth; sup-
ply; Stuart, J. C. Jones; Vero, C. W.
Broyles.

Rev. C. H. Summers, pastor of the
West Palm Beach church, was made
presiding elder of the Gainesville dis-
trict and is succeeded at West Palm
church by Rev. L. M. Broyles. Rev. W.
D. Dunn, pastor of the churches at
Tampa and West Palm Beach, is now
presiding elder of the Jacksonville dis-
trict.

The list shows, T. M. Lee, as assign-
ed to Okeechobee, and missions, this
probably is the preacher who was sta-
tioned at Moore Haven two years ago.

COURT AT OKEECHOBEE

OKEECHOBEE, Dec. 9.—Judge C. E. Chillingworth, accompanied by George Coleman, state attorney, and Elmore C. Moore, court reporter, opened the fall term of circuit court today in Okeechobee City. Owing to the fact that no important cases have been docketed for this session, court is expected to be of short duration.
